SPORT LOOKBOOK

AIM HIGHER / J. LINDBERBERG SPORT / SS22

J. LINDEBERG

For Spring Summer 2022, we trace our roots back to where it all started and revisit the cities of our dual-launch in 1996, New York and Stockholm. Building on the contrasts that shaped our unique expression, the collection balances futuristic elements with traditional icons, smart sport functions with a modish aesthetic, and Scandinavian style with a New York attitude.

The story of our origin is at the very heart, as we continuously aim higher with every collection. Taking on the concept of a road trip, we recall the heritage moment when founder Johan Lindeberg traveled across Europe on the back of a motorcycle with dreams of founding the brand. Seen through the prism of confidence and independence, it's a reflective journey that navigates our way and caters to our community of unconventional thinkers living life to the fullest.

From city golf to the country club, there is a strong New York vibe characterizing the collection. Inspired by the geometric grid system in the city, we created this season's color block and prints. The city's architecture also inspired the **Re-flect** capsule, with mirrored details giving us a chance to reflect on our surroundings and highlight the sustainable assets seen throughout. Key styles feature mirrored fabrics, that put details such as the iconic Bridge logo in the spotlight.

The elevated **Modern Monogram** story brings a fashion twist on a country club feel. The addition of a hot pink for the collection is a nod to the rich heritage and moments shaping the J.Lindeberg brand.

Continuing our lifestyle approach and upholding our fashion and sports credentials, the NYC Sports capsule embodies a unique New York attitude, while the seasonal Athleisure capsule is a nod to the former New York fashion show inspired by the iconic Lamborghini Countach from the 90's. The racy lines from the car inspires the sharp aesthetic, and the black and yellow colors bring a sporty twist to the design.

We also introduce **Animal Print**, a new exciting print for our women's collection, in two vibrant

color ways: Moroccan Blue Animal and Faded Rose Animal.

Our passion for sport has lead us to introduce a new line in the collection - **Racket**. The capsule collection is perfectly adapted for racket sports with details such as essential ball pockets, lightweight materials and a fit that helps you perform your best on the course.

Reflecting our transition toward a sustainable tomorrow, we've taken yet another big step forward. For the next generation of performance golf wear, we've banned materials with PFC and flour carbon. Instead, we mainly use fabrics that are bluesign® approved or OEKO-TEX® certified. As another major stride, we have a bigger ratio of recycled options. Among the new additions are recycled yarn, light vent jersey, sport pique and tech mesh jersey.

We also proudly present the brand new **Air Light Stretch™** - a super stretchy and lightweight jersey fabric that seamlessly follows your body movement in every swing, as well as **Lux Bonded™** - a lightweight neoprene with a luxurious look and hand feel. Meanwhile, our appreciated style Big Bridge has received an update with a new fabric for the season: **Tech Mesh Jersey™**. Crafted to performance perfection, it features serene stretch and high air permeability. Naturally, we also used in the matching mid-layers.

Creating our 'dent' along the way, we've updated our house principles in a modern context and refined our products to last and stand out. Staying true to our DNA and rich heritage, it's a confident collection bringing uniqueness and attitude - while embodying our overarching ethos to always Aim Higher.
